Mini size Surface-mounted linear fixture

These Surface-mounted linear fixtures are our hot-selling products with a narrow, low profile. The 118-degree beam angle is ideal for a wide, even spread of light like in cove and wall-washing applications. They can create clean, modern linear designs for retail stores, commercial buildings and residential interiors. Some of them can also be used in conjunction with our tiltable stands. There are includes a choice of clear, frosted or milky diffuser. We also support customized product if you have a good idea.

Art aluminum profile

The skirting lights play a visual balance in the room design. Using their linear vision, materials and colors to echo each other, they can beautify the decoration effect and outline the sense of space. Another function of the skirting line is its protection function. The skirting line can better bond the wall and the ground firmly, reduce wall deformation, avoid damage caused by external collision, and it is easier to clean.
